

# COMPOSITES: THE FUTURE OF COASTAL CONSTRUCTION

**BALCONY RAIL • HAND RAIL • PIER DECKING AND SUPPORTS  
STAIRWELLS • PEDESTRIAN BRIDGES AND WALKWAYS  
FIBERGLASS FENCE • DRAIN AND TRENCH COVERS  
STRUCTURAL MEMBERS • SAFETY PRODUCTS • DESIGN SERVICES**

Since 1985, Quality Industrial Plastics, Inc. has been furnishing corrosion resistant fiberglass building products and other maintenance free composites to the marine industry. The uses of our products are evolving to meet the needs of contractors and individual home owners in coastal environments. Architects and engineers are specifying and building with fiberglass more and more because of its many advantages over wood, metal, and aluminum. Whether your plans include building a marina, fishing pier, coastal home or condominium; or simply to add a fence around your swimming pool, Quality Industrial Plastics, Inc. can offer you a cost effective way to enhance your project.
